Submitter Comments:

I have witnessed many deaths during my career as a registered nurse and personally as a daughter and a friend. In my later working years, as a counsellor, I had clients who were forever effected by a long, painful death of a loved one.

I fully support voluntary, legal euthanasia. I realise that there is much work to be done to ensure safeguards are in place to protect this process from being abused.

There is a time when people have endured enough and wish to have a dignified end of life. Please allow us to consider how this process can be implemented in a humane, intelligent way without bias. Those who do not wish to participate for whatever reason also have rights and can exercise them.
