Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

I am strongly apposed to the VAS bill. It does not give people the choice to quality end of life options. The medical association is against the bill so why does the government insist it's above those in power to change and save lives. Money spent on high palliative care would give people quality end of life experiences rather than thinking ending there life is the only option..it's a cheap ploy to save money eat her than spending it on saving lives. The world is watching ups care for those most vulnerable in our community. We are failing to do that if we allow people to kill themselves. We care only when it comes votes. Do not pass this bill it will open a door to those with no mental capacity to decide about there own disabilities to end life rather than be a burden to others.

Sincerely
Jeana french

Sincerely,
Jeana French
