Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

Dear representatives

I am writing to let you know that I strongly object to the above Bill. I would like to think we are trying to save lives and not be responsible for choosing to end a life.

For a doctor's choice to be taken away of whether to 'kill' a patient legally or not is not right. To be penalised for talking someone out of euthanasia is also taking human rights away from them.

Where do we draw the line? If this Bill ever gets passed, it will become a grey area and assisted suicide will become the go to and loop holes will be found to make this happen whether it is warranted or not.

Since when do we have the right to choose when a person should die? Isn't that murder?

I strongly recommend that this Bill be withdrawn and not be passed otherwise In the future this will cause huge side effects and trauma in people's lives only adding to the mental health problems that is already so rampant.

Thank you for your consideration and I trust the right choice will be made.

Yours sincerely
Kathryn

Sincerely,
Kathryn Seaton
