To the Queensland Health Committee on VAD:

I am writing in support of the VAD bill for Queensland, a bill which is similar to those which have already been passed by four other Australian states.

I believe about 80% of Queenslanders want this bill to be passed, although a vocal minority wants to take this right away from the 80%. This minority has the right not to use VAD, but they should not have the right to prevent others from making use of it.

I believe that the safeguards are extremely strong, so that I can see no reason why the bill should not be passed. I would also like to see that people in regional and remote areas have access to VAD if they wish to.

With thanks
