Please be informed I believe in dying with Dignity and would like my name put on the list please if you have one

I do believe until a person is actually dead they should be allowed to have a say in how they die (if capable). If not what the nearest person to them(if the person concerned has told them how they wish to die) should be listened to.

They do it to animals why let a humans suffer (this I do not understand)

I am 80 already and certainly do not wish to suffer until I die

Thanking you
Irene Morrison
