Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

I want to register my opposition to the "Voluntary Assisted Dying" Bill.

My concern is that the Australian Medical Association is opposed to the Bill and they represent the Medical Practitioners who would be providing the assistance. No one should ever be made to do something that goes against their moral conscience. This Bill would be causing many people to be involved who are against assisting someone to die. It would be much better if we were looking at a bill that demands better care for the dying and gives them dignity...palliative care needs a major funding boost in Queensland. Instead we will be spending the money on legal services covering all the issues this bill for assisted dying will create.

Please reconsider this bill and vote against it before innocent people are made to assist with the killing of another human.

Sincerely,
Paulina Coleman
