BRISBANE

From: Leslie May

Dear Members of the Committee,

I support the Voluntary Assisted Dying Bill 2021. It is sorely needed.

I believe that the Queensland Voluntary Assisted Dying Bill will give us the best Voluntary Assisted Dying law in Australia.

The people who disagree with it will not be required to participate because it will be 'voluntary'. They should not be allowed to deprive me of the benefit because they do not want it for themselves.

Please support the Bill as it is. Without it doctors are too afraid to relieve suffering in case they are prosecuted.

It is important to me because of sharing distressing experiences of people as they died.

Thank you,

A handwritten signature in cursive script that reads "Leslie H May".
