Subject: my views on assisted dying
Date: Friday, 2 July 2021 12:43:12 AM

HI

simply i would like it considered that as a part of an advance health directive and similar forms of stating how I would like to die...

i would like it to be possible that if for my bad luck I develop a chronic illness that takes away my ability to give my consent to assistance in dying...

I would like it to be possible for my enduring power of attorney - health matters, to be able to say for me that it is my wish to die quickly, without waiting for the eventual slow death from the chronic illness I've been stricken by...

If that doesn't make sense to you then please ask me to draft it in a way that you can get my drift...

yours faithfully,

Robert Jenkins
