Please let people have a say . Why do we have to die and our people have to suffer. To go though what we did is not fair.Do we stay alive for much longer because we offer a chance of staying alive for a bit longer my daughter has 5 children of she was going to take any thing she could for them . She died a horrible death. I just wish we could have made her passing a lot easier for all off us. I just wish we could have all been with her and held her. Instead we were begging her to go. What did we have a yellow skeleton with yellow mucus coming from her her mouth and nose .This is my lasting image of her. I so love her and she did not deserve this.
