Re: Is this quality medical care?

Dear Health and Environment Committee,

I am writing to you with great concern for the elderly, sick and vulnerable in our state.

According to the Commonwealth Criminal Code, it is currently “illegal to use a phone, videoconference, email or other electronic communication to publish or distribute material that counsels or incites committing, or attempting to commit, suicide.”

The Premier has asked the Prime Minister to urgently amend this law. She wants doctors to be able to approve assisted suicide over the phone or in a video conference. They wouldn't have to meet with the patient, or look them in the eyes, while discussing the irreversible, intensely personal decision to take their own lives. Refer to section 14 (3) The person may make the request verbally or by gestures or other means of communication available to the person.

Is this quality medical care?

This is wrong. Queenslanders deserve better treatment, especially when it comes to deciding if they're going to take their own life. Please reject the Voluntary Assisted Dying 2021 Bill.

Sincerely,
