Submitter Comments:

I live in Croc country and LOVE all encounters and viewings of these amazing creatures. All wildlife in Qld has a place and should not be controlled. Just because a human behaves like an idiot and doesn't heed to signs or is just stupid shouldn't result in the crocodile or wildlife to pay the price. We need to co-exist and not remove all the wildlife in the state. Much tourism is seeing wildlife, stop stuffing up the ecosystem and nature. Leave it for other generations to enjoy too. Stop killing wildlife, especially crocodiles. Please.
