Dear Mr Molhoek and Dr Rutherford

### **Letter of submission – Crocodile Control and Conservation Bill 2025**

Please accept this submission that Cairns Regional Council is supportive of the Crocodile Control and Conservation Bill 2025. The proposed Bill seems reasonable in striking the balance between protecting the crocodile as a species and protecting humans in populated settlements and waterways.

Cairns Regional Council supports current LGAQ proposals to reduce interaction between crocodiles and community, especially targeting situations that are preventative of problem crocodile interactions as a priority.

Should you have any further enquiries or require additional information, please contact Council's Natural Assets Coordinator, Jade Monda via email [REDACTED] or phone number above.

Yours sincerely

Cr Amy Eden  
Mayor

c/Office of Mr Shane Knuth MP, Member for Hill
