Submitter Comments:

I [REDACTED] would you like to make a couple of points. Firstly I think education of consumers is paramount and I feel that Queenslanders may be stuck in their ways or maybe too lazy to take their containers for a refund. Also, I would love to see the soft plastics recycling come back on board throughout Australia as I think it is disgusting that all these soft plastics are going to landfill for the last year. It produces toxic chemicals under the ground that leach into water tables eventually drinking water and oceans into the fish that we eat. Kind regards, [REDACTED]
