TO WHOM IT MAY CONCERN

Please consider this submission into the "Fly in, fly out and other long distance commuting work practices in regional Queensland" inquiry.

The past 3 years driving from bundaberg to emerald. More direct flights would be useful. I lived in central queensland for 40 years. I think i have earned a sea change while still working where i choose. I dont have a problem with travelling, i actually prefer it. I dont have small children though. FIFO/DIDO Suits me.

Equal time rosters need to be implemented, as in 7 on 7 off. Too many contractors make thier employees work at different sites on days off.

Enforce RDO's as RDO's, not time to work at another site. While this has not been a problem for me i know a number of workers who face this continuously. Give the people the time off that they are due to have, so they can make plans with their families and stick to their plans.

Regards

Eric Hertsch
