Brisbane 4000

Dear Sir or Madam,

I would like to say that my husband + I  
are against Fly in Fly out services in Brisbane  
I have lived in Collingville all my life I have  
seen the good times and the bad but for the  
last 2 years this small town is struggling to  
survive :

Business, schools, Real Estate, Entertainment, etc  
my grand son has to travel to Bowen twice a  
week for training for football and then go somewhere  
on Saturday to play. Collingville has always

been big on football and all other sport there is no football here at all touch football once a week

my daughter partner has to go 4 hours away to a mine at middletown. They have their own home here on 2 children and loses his dog.

There are people who do love country towns and not cities.

We need families to live here so our town can survive and local families.

Glencore told my daughter partner he would not be happy working in Collinsville as he was too multi-skilled. He told work-pack well how happy do you think I am driving a truck 4 hours away + away from family he was a truck driver for over 12 years here after living here 72 years this year is hard

I just hope Labor Government can help Collinsville.

Yours Sincerely

Wong & Elaine Batchelor
