Subject: illegal Taxi Apps
Date: Friday, 25 September 2015 7:26:37 PM

Dear Sir/Madam
How are you

I am an owner of a taxi license. We need your help to stop the illegal taxi apps. We need to have the same rule for the whole industry. This is my bread and butter. The taxi industry is my main source of income for my children's education and mortgage. Everything is depended on my taxi operation. I don't fear from the competition. Competition is always good. We are doing the right thing, delivering the right service to the public. The taxi industry is the safest service to the public and the driver and it provides a large revenue for the government. These illegal apps are doing the opposite. Please do not let these illegal apps operate in the taxi industry. That is my humble request. My future and my children's future is in your hands. It would be greatly appreciated if you can stop these illegal taxis. At the moment it is very hard to make the money for the license, mortgage and my children's education. Please, once again, rescue us from this difficult circumstance. Please save the small business people.

Kind Regards
Jagdeep Singh
