

Submission No. 92

11.1.10

12 October 2015

From: [REDACTED]
To: [Infrastructure, Planning and Natural Resources Committee](#)
Subject: Proposed Bill to Transport Operations (Passenger Transport) Act 1994
Date: Monday, 12 October 2015 12:33:42 AM

Good day,

My name is Timothy Burns and I am e-mailing you today with regards to advice received that a Bill has been proposed to State Government regarding changes to the Transport Operations (Passenger Transport) Act 1994.

I wish to submit to the committee that I wholeheartedly disagree with the proposed changes and furthermore believe that with the ACT leading the way, Uber and other ride-sharing options soon to come to Australian shores should be welcomed like the breath of fresh air they truly are to the public transport industry.

Ride-sharing has been so well received by the public for it's ease of use, reliability & overall cheaper outcome that it has pushed the Queensland Palaszczuk government to undergo an independent review set to begin in the coming weeks.

The question then, I must ask, is why this Bill should even be considered as nothing else but a back peddle towards a better solution for all citizens of this fine state.

Hundreds of thousands of people Australia wide and millions of people world wide have voted with their fingers.

Now is to time for us to take control of our public transport network and shape it the way we want. And what better way to start than by disposing of this Bill quickly and quietly.

I firmly believe Queensland can benefit greatly from ride sharing in a professional sense and I thank you for your time in allowing the public to comment on these proposed changes.

Please don't hesitate to write back to me on this matter as I would be happy to discuss the points mentioned in this e-mail.

Kind regards,

- Timothy
