17/10/15 Dear committee members

I fully support the amendment bill

How can the government happily take over 500,000 for a taxi licence and don't do anything to stop overseas operators which pay no tax in the country.

1.7 million in fines to drivers in which Uber pay for, (what a joke)

Points off drivers licence will fix this problem, Uber has been thrown out of many countries, why not Australia?

This year the taxi industry is 10 million dollars down is GST or 27 thousand dollars a day that the state government losses, while it sits on it's hands.

Remember that their are 10 thousand workers in the taxi industry. which support 40 thousand people, that is at least 20 thousand votes on election day.

Do the honest thing for Queenslanders, pass the BILL.
