

TO WHOM IT MAY CONCERN

I, Rajinder Mohan Kalia, as an owner/driver, would kindly request to Australian Government to put an end to "illegal taxi service" also known as Uber.

We as small business, who abide by taxi industry and Government rules and regulations, feel that our Government has not risen to the occasion to serve justice to us but allowing the illegal company to operate successfully.

I personally perceive that Uber has planted a hard slap on Australian Government's face by being evasive in paying GST/tax and continuing to operate in an illicit manner.

Apparently Uber drivers are not licensed drivers to be carrying passengers on the pretext of making money. This only depicts that Our Government is compromising on public's safety or whoever uses Uber as their carrier.

Since Uber has come into action, I have faced with financial problems that include loan repayment (house and business) and other bills. My relationship with my young family has recently being a disturbed one because I am unable to fulfil their needs.

I urge our Government to take appropriate action against Uber and declare it's closure at the earliest.

Thanking you in advance

Rajinder Mohan Kalia
