Subject: re- taxi licence

Attn: OPTS Review,

We own a taxi licence purchased on 14-7-1992 as an investment for our retirement, we were told it was a better investment than housing. We paid \$155,000 for it then, and taken out a loan to pay it off over many years.

Now we see you might let this Uber share ride allowed to be legal in QUEENSLAND. It is not legal now and should not be operating now but they are. We don't drive the Taxi, we lease it out. We are self-funded retirees and in our seventies. This could make a big difference in our lives if you change the Queensland Taxi Law.

These Uber share ride should not be working in Queensland now as they are illegal and We hope they stay that way.

Kind Regards, Andrew & Elia Eadie.
