> The ipnrc amendment to the transport legislation,  
> My grandfather has 3 taxi licences and has this as his main source of income. Uber ride sharing is threatening his income and the heavily regulated taxi industry, he has paid tax his entire life And pays > 30% of his income in tax. The taxi industry is a regulated industry and legislation can not be changed because a company wants to operate and pay no tax in Australia. The uber ride sharing service needs to be stopped and not allowed to operate in Australia, how can they threaten the lively hood of Australians who pay tax.
