Submission No. 280

Dear Sir/Madam,

I am writing this in support of the transport
Legislation Amendment Bill 2015.

I am wife of taxi owner. We bought ^{single} taxi couple
of years back. We have put our and my parents
house as guarantor to get loan from bank.

Since Uber is here & govt is not doing anything
about it. We have lost more than 50% value
of the taxi license. This is putting risk
on my young family. If Uber is not stopped
how we gonna manage to pay my loan back.

My husband says he has lost heaps of work
and losing everyday.

We pay huge amount of money to transport as
rules and regulation fee.

Uber is not paying a single thing.

Please do something, don't let us get destroyed
by Uber.

I am Australian citizen, I am proud to be an Australian. We supposed to be smart than others.

Please don't let this outside company take our food away from our plates.

Please stop this illegal app.

Thanks
