To the Infrastructure Planning and Natural Resources Committee,

I support the taxi services amendment Bill 2015.

The current penalties for breaking our laws in relation to illegal taxi operators are not working. I feel that demerit points would be a positive way of enforcing our current laws as they are not being enforced at the moment. As a teacher and a parent I have always taught my children to **uphold the law** as the law is there to protect us all.

The government goes against this and allows an unlawful business to open up where there is already a regulated option ,this will create division among the people of Australia. Having read, in order to satisfy myself as I have children of going out age... the insurance clause belonging to a particular illegal taxi operation it is completely obvious to me that it does not hold the same integrity as the policy covered in the Class 3 CTP of a legal taxi.

This illegal taxi service is not a fair nor just business and it is putting passengers in danger on many levels.

Kind Regards
Catherine Murphy
