

Submission to the Infrastructure, Planning and Natural
Resources Committee

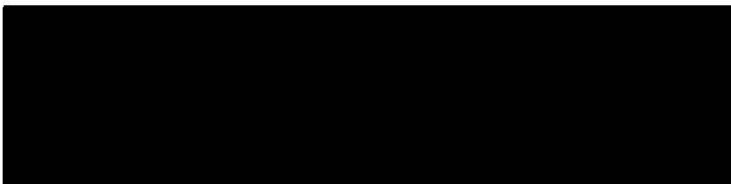

I have been driving taxis for around eight years and I have always been able to make a decent income from it. Over the last year, I have seen a decrease in my income partly due to the illegal Uber service.

Many other drivers and myself are sitting on ranks watching the illegal taxis take our work. This makes us very upset as we are under so many rules and laws. Fines, when they happen, seem to have no effect.

Demerit points would be a good way to stop them breaking the law.
