Submission to the Infrastructure, Planning and Natural Resources
Committee

I think there should be demerit points on illegal taxi drivers because they are not obeying the law.

As a taxi driver, I have to obey a lot of laws and this costs me money for the correct uniform, equipment, licencing and training. The illegal taxi drivers have none of these costs.

Uber drivers are doing the jobs and fares that I should be doing as a legal taxi driver. This has caused a decrease in my income over the last eighteen months but particularly in the last six months.

I support demerit points for illegal taxi services.

Thank you.
