Subject: Submission Illegal Taxi
Date: Wednesday, 21 October 2015 9:42:13 PM

Dear Sir or Madam

My name is Kyung-Sik KIM, I am one of maxi taxi operator in Brisbane, I have been running this small business (borrow fund from the bank) for 4 years and 8 month and I have a wife and one sun which is 3 years and 8 months.

Since the Uber launched the illegal business, I and my wife have got lot of depression in running taxi business because of illegal Uber business, Uber is charging half price to passenger when compare to the taxi service, so many passengers are using Uber so it affects to our industry therefore my income is decreasing.

It is unfair competition because I regularly pay registration fee, expense insurance, radio fee, tax and others extra fee for running this business also the taxi business take more regal responsibility therefore many countries (German, Spain, South Korea, Japan and more) are banned Uber business because unfairness. Nowadays I am feeling with Australia's law supports if any company or personal who has enough to pay penalty by running their illegal business then give permission to keep doing their on illegal business.

Please consider all matters and take action as possible as soon to stop illegal share riding service, I don't have much time to survive financially, my boy said recently "daddy is always working" I want a time to look after my family as well.

Yours sincerely

KYUNG SIK KIM
