Hi,

I would like to make a submission against illegal taxi operations and for the introduction of demerit points for a person who provides a taxi service without a taxi service licence or a peak demand taxi permit.

I am all for competition but if the Government is to allow Uber to continue to operate then they should have to abide by the same rules and regulations that the taxi industry abides by. Taxi licenses are an investment and many people have saved for years to purchase licenses to fund their retirement. If the Government does not enforce a fair playing field then compensation should be provided to taxi license holders so as they are not disadvantaged.

Regards,
