

Dear Committee members,

I would like to start in thanking Mr Katter MP, for putting forward the Bill to propose the implement of demerit points to those people who are blatantly abusing the law in providing an illegal taxi service.

I ask the Committee to please pass this Bill, as the drivers of these vehicles are disregarding the officers and the law, so much so that they actually say that "Uber will just pay the fine".

I find it absolutely disgusting to think that those officers that are trying to uphold the law of this state are actually locked out of the system and feel that they are powerless.

I find it truly unethical that Uber disregard the law, and have no intentions of abiding by the rules already put in place by our Government.
