The Chairman
Infrastructure, Planning and Natural Resources Committee

Dear Madam/Sir

Re: Submission- Transport Legislation (Taxi Services) Amendment Bill 2015

We fully support the introduction of Demerit points, to help halt the spread of illegal Taxi services in Queensland. Current penalties are being paid & contested by a overseas based multi national company. This company has no respect for Queensland Laws. I fear this is opening the door to other companies that will jeopardise jobs and incomes in many industries.

We are self funded retirees, well into our eighties. Who have owned legal taxis for many years. Our Taxi income allows to be retired without claiming benefits from either State or Federal Governments.

I urge this committee to support the introduction of demerit points as soon as possible.

Yours Sincerely

Mr Giordano Scaini & Mrs Nonie Scaini
