Subject: transport amendment bill
Date: Thursday, 22 October 2015 2:52:49 PM

hi

i fully support this bill. taxi is my only income and this smartphone applications are ruining that taxi business. i think they want to establish the black market and ruining the economy of australia . they said taxis need to compete but for this they need to pay the same fees as taxis pays, the second reason is they are not safe at all and not good for public safety .so please pass this bill

Regards
