Dear Sir

Five yrs ago, me and my husband purchased two taxi licences. We mortgaged our two houses to finance the purchase of these taxi licences. We invested the money with a hope of guanted income Illegal taxis services like Uber are circumnavigating the Queensland taxi industry at the rapid rate and to the detriment of our society.

Our livelihood is at the stake and so is the investment. Our annual gross turn over has decreased by one quarter as compared to last yrs. At the moment it is vely hard to make the money for the license, mortgage and my children's education. It is becoming difficult to find drivers also. The taxi industry is the safest service to the public and the driver and it provides large revenue for the government.

These illegal apps are doing the opposite. I fully support the bill and it should be passed through as soon as possible. It would be greatly appreciated if you can stop these illegal taxis.

Regards
