Re: Concern about illegal Taxi Services

As illegal Taxi Services are aloud to operate in Qld, I am surpriced and find it hard to understand that such a large Organisation got the go ahead from the Transport Department to allow such an illegal Venture to exist.

As our existing Taxi Industry carries all the costs, Gov. Taxes and Licences of a legitimate Business, the other Operators driving Taxis that are cost free. They are exempt from all costs and Licences

I strongly object that such an illegal Taxi Service should not be allowed to operate in Qld, because it undermines honest Business practices and our workforce in Australia.

Would you please look in to this Matter.

Your sincerely  
G. Schulze
