To the Infrastructure Planning and Natural Resources
Committee,

I support the taxi services amendment Bill 2015.

Dear Sir/Madam,

We operate an LPG business and supply parts to a lot of taxi vehicles. The taxi is an environmental advocate for passenger transport. We support this amendment for demerit points due to the majority of extra cars on the road carrying out illegal operations being powered by petrol and not the more efficient ecological alternatives.

The government has done a disservice to this community by allowing this to go on for so long and hopefully this Bill will help to rectify this.

Kind regards,

WILLIAM WARREN
