

To the Infrastructure Planning and Natural Resources
Committee,
I support the taxi services amendment Bill 2015.

#544

Dear Sir/Madam,

I operate a mechanical business and service taxi vehicles. I support this amendment for demerit points as I understand the importance of vehicle maintenance. A taxi is serviced at intervals based on kilometres not based on how much money the operator has made. It is extremely important that a passenger vehicle is properly maintain as they are putting their trust in the operator and have no knowledge of the maintenance that has or hasn't (in the case of illegal taxis) been done.

Kind regards,
