Subject: Pollution is destroying our Reef - and we demand you do something about it.
Date: Wednesday, 13 March 2019 5:31:23 PM

To those with the power to do something about the catastrophic situation which is pollution destroying our Reef.

My name is Silvana Franze and I am responding to an email from WWF asking the general public to make it's voice heard.

Stop protecting Big Business and put our country first.

I am not part of an organisation, simply a concerned citizen wishing this natural resource be protected for future generations.

[REDACTED]

Please let me know what you are doing about this urgent issue.

Kind regards
Silvana Franze
