Subject: Submission: Environmental Protection (Great Barrier Reef Protection Measures) and Other Legislation Amendment Bill 2019
Date: Wednesday, 13 March 2019 6:22:04 PM

This submission to the Queensland Government is to express support for the draft laws under consideration to cut Reef pollution, to give the threatened underwater Reef ecosystem and its marine life the clean water it needs to recover and protect it for future generations. Outdated polluting farm practices that are harming the Reef should be rescinded.
