Subject: [SPAM ?] Laws to cut Reef pollution
Date: Thursday, 14 March 2019 9:32:47 AM
Importance: Low

To the Queensland Government,

I strongly support the proposed new laws to ban outdated polluting farm practices that are harming the Reef. The Reef is critical to the health of the planet, and it requires clean water to recover and protect it for future generations. Please do anything possible to cut pollution that harms the Reef.

Sincerely,

Mary-Ann Reid
