Subject: Save the Great Barrier Reef
Date: Thursday, 14 March 2019 10:25:01 AM

I support the draft plan to save our amazing Great Barrier Reef by banning outdated polluting farm practices and ridding the reef of the crown of thorns starfish. Whatever available scientific method must be activated ASAP. We all depend on our reef for contributing to a healthy planet and greatly contributing to a lively economy.

Yours faithfully

Keelah Lam
