Hi

I am writing to you to voice my concerns regarding the future of the Great Barrier Reef

Any threat particularly man made or caused by human interference/involvement by commercial driven ventures cannot be risked or entertained

The whole planet is in a precarious balance of survival including the human race

The reef is an immense ecosystem which supports life not only in it's vicinity but worldwide

No to mention it is possibly the greatest tourist destination in Australia

So please do everything in your power to help it to flourish

Thank you

Calvin Wilson
