Subject: Expression of support towards banning outdated polluting farm practices
Date: Thursday, 14 March 2019 10:43:35 PM

To whom this may concern,

I strongly support the new laws to ban outdated polluting farm practices that are harming our Reef. This would be a great step towards providing the Reef with the clean water it requires to recover and ultimately protect it for future generations.

Must you wish to contact me regarding my support, please do not hesitate to contact me. My mailing address is [REDACTED].

Kind regards,

Gabriella Ann Farrell.
