Subject: Submission on Environmental Protection (GBR Protection Measures) & Other Leg. Amendment Bill 2019
Date: Thursday, 14 March 2019 5:01:12 PM

Dear Committee,

I strongly support the proposed Environmental Protection (Great Barrier Reef Protection Measures) and Other Legislation Amendment Bill that will keep the GBR from declining

Currently the laws that are suppose to protect the reef are not strong enough as the reef is not recovering but still declining to the point where there will be no return. We have to protect the reef, nothing worse like it in the world. Saddens me to think my children will never see it

Yours sincerely,
Romarhio Aguilar
