

15 March 2019.

Acting Committee Secretary
Innovation, Tourism Development and Environment Committee
Parliament House, George Street, Brisbane Qld 4000

Dear Acting Committee Secretary

I would like to submit the state government has laudable goals that should be respected by this proposed bill.

I would submit though the government has not given myself as grazier sufficient time to make a written submission to enhance if possible the operation of the Bill.

The information about this Bill came to me via a Agforce Newsletter yesterday in the form of a email.

Additionally I am in the midst of a significant drought without adequate time to consider fully the implications of the Bill in the time frame required ie this afternoon by 5 pm. In North Queensland the rain and flood events would make it more difficult to make the required written submission for my fellow graziers up there.

In conclusion I would suggest the government establish further mechanisms to allow adequate consultations in a written format to enhance the operation of the proposed Bill.

Yours faithfully

Ian Reynolds
