Subject: Please help save our Great Barrier Reef
Date: Wednesday, 13 March 2019 4:53:47 PM

Dear respected Members,

I deep-heartedly urge you to pass the new laws to protect our iconic Great Barrier Reef.

It is part of the soul of this country and lets people the world over realise how beautiful our country is. As you would also know, it is of enormous value to the Queensland economy via tourism.

With the impacts of severe climate change events and the continued use of outdated farming practices, we will lose our Reef forever in just a few short years. Also, the damage to the state's coastline will also be severe and the costs associated with this, astronomical.

I truly hope you pass these laws unanimously.

Your sincerely,

Ian J. McLean
