

Criminal Code (Defence of Dwellings and Other Premises—Castle Law) Amendment Bill 2026

Submission No: 165

Submission By: Gary Latcham

Publication: Making the submission and your name public

- I am an older man who has worked to support his family and to provide a reasonable life for himself and his family.
- I am submitting my words to support the Bob Katter Party in their bid to amend the Castle Law in Queensland.
- We need a stronger law to protect home and property owners from unlawful entry, invasion and attack.
- We need to be able to defend ourselves and family without the stress of being charged or jail. time.
- We need to know that we are able to provide more force than what the intruder/s are providing to protect ourselves, our families and our properties.
- Safe guards need to be introduced to support and protect property owners.
- Reasonable force should be allowed to be greater than the force and violence being provided by the offender.
- Our property, our buildings, our vehicles and all we own on our properties is ours and we should be able to defend that from anyone who is trying to damage, destroy or steal it, using force greater than the force they are using on us.
- I hope that I never have to use force or encounter such an event but I would like to think we are protected if it was to happen and force has to be used to protect family and property.
-
