### Submitter Comments:

I am full support of this bill to be passed in parliament. As a working parent, there is little choice to be fortunate enough to be at home with our children due to the cost of living. Sending our children into care, finding a trustworthy and safe environment is stressful enough. Our children are the most vulnerable population, and we as parents have the duty to protect them. This online register allows parents and familiar member to check if local or known predators live close by. I believe this will also allow us as parents to be able to identify those centres who are not completing full criminal checks on their staff, putting our childing at high risk. I do not understand why these predators have more rights than victims. They are a danger to children and should be on the sex offenders' registers and should not have the right to anonymity. This bill being passed will allow parents to make decisions on living areas, centres and be able to spread awareness to other parents.
