I live and work in Nambour, I have owned property here since 2016. In this time the crime and behaviour in town has grown exponentially! I have been abused by homeless and people affected by drugs simply walking the streets, the rubbish and litter flowing into our creeks, polluting our waterways.

Since January we have found 8+ used needles in and around my workplace, carpark and Park.

I can't even take my daughter to the parks in town as I'm too scared we will be abused, or she will stand on a used needle.

It is a weekly occurrence to see people walking the streets looking for trouble or off their heads on drugs

You only ask those who have been in Nambour 30+ year and you can see they are truly disheartened when they see their town!
