I hope that a decision is made to toughen laws to deter our youth from making bad choices in life. Our youth are this country's future and if it seems acceptable to allow drug taking and or anti social behavior in our society then we are fully responsible for the outcomes that this thinking would produce. Young people don't like restrictions placed upon them but without those restrictions where will we as a country end up? We need control, we need laws to protect our youth (our investment in the future) we need to make the tough decisions right now so this country of ours stands proud for many generations to come.
