I support the Bill wholeheartedly.

This is because most offenders are aware of their actions and its consequences, and still offend because they know that the law was on their side, protecting them from the consequences of their criminal activities. Furthermore, the initial laws of Adult Crime, Adult Time, have resulted in a huge decrease in such crimes because the youth were now aware that the law was no longer protecting them from their criminal activities. Therefore more such laws will definitely protect the general public from youth crime since the youth will realize that the law is no longer protecting them and will stop their deliberate criminal activities, thereby creating safer neighborhoods.
