I support a strong stance on anti-social behaviour. My local town is severely impacted by anti-social behaviour related to homelessness and people with mental health concerns and substance abuse issues camping nearby to public facilities, such as children's playgrounds, parks, dog parks, schools, etc., which are used by members of the community, including children. My wife is employed in a retail outlet and is often subjected to anti-social behaviour, including aggressive behaviour and verbal abuse, by people in the same situation as outlined above.
