I strongly feel that 30.3 necessary tasks
Needs a extra inclusion
Permission to attend place of employment
Permission to attend a job interview

Otherwise you are stopping people trying to do better

Also this is very drug focused? The provisions for banning people from a area also need to be focused for alcohol abuse and alcohol abusers are much more likely to be aggressive problems than stoned people. I strongly feel that exclusion orders need to include drunk and disorderly behaviour rules as well! And that alcoholic behaviour should be rewarded with drug diversion plan orders.

I also strongly feel that there needs to be some push included to get judges to enforce these laws and the laws we already have and feel and have had many social conversations debating the need for any more laws when it is obvious to any casual observer that while we have lots of good laws we don't have a system of judges that are willing to enforce the laws we have in line with community expectations.

Thank you for your time and consideration of this submission.
